

IRENE DuPONT LIBRARY RENOVATIONS

Owner:

St. Andrew's School

Project Location:

Middletown, Delaware

Building Use:

Library

Project Completion:

1999—2008

Delivery System:

Design/Build

Architect:

Richard C. Meyer,
Architects

Description:

Nowland Associates was contracted to coordinate construction efforts for major renovations to the Irene DuPont Library.

New openings were cut through existing masonry walls and floors to allow more natural light and openness throughout. Book stacks were relocated, new railings installed, and all interior finishes were updated. Building systems were upgraded for more efficient climate and lighting control while the library was also modernized to be able to adapt to the ever-changing technological systems required today.
