

ANCHOR BOATS SHOWROOM

**Owner:**

Anchor Boats

Project Location:

North East, Maryland

Size:

17,800 SF

Building Use:

Boat Showroom
Sales/Administrative Offices
Service/Parts

Delivery System:

Design/Build

Construction Cost:

\$900,500.00

Project Completion:

2004

Description:

After a fire rendered their existing showroom unusable, Anchor Boat Sales turned to us to Design Build a new facility at the existing fire damaged location.

The new showroom ended up being pre-engineered, clear span building, with a 30' high eave height, and a resilient epoxy coated concrete floor.

The building contains large expanses of aluminum storefront with tinted glazing and 10 skylights that fill the showroom with natural light.
