

ANCHOR BOATS MARINA ADDITION

Owner:
Anchor Boats

Project Location:
North East, Maryland

Size:
6,771 SF

Cost:
\$636K - Building

Building Use:
Retail/Marina

Delivery System:
Design/Build

Project Completion:
2012

Architect:
Gifford Nowland, AIA

Description:
This two story addition was built to provide space for retail parts and boating accessories as well as management offices, parts storage, public and private restrooms.

Foundation wall construction is cast in place concrete with the rest of the building being structural steel and light gauge steel framing. The exterior is a combination of E.I.F.S. and steel siding.
