

## BARN DOOR INSTALLATION

**Owner:**

Dave Moore

**Project Location:**

Bear, DE

**Cost:**

\$61,000

**Building Use:**

Agriculture

**Project Completion:**

2023

**Description:**

This project completed by Nowland Associates' Special Projects Division involved installing full width sliding barn doors on the two sides of an existing open-air agricultural building.

The existing structure was modified to carry the weight of the new doors, and the final project resulted in a more secure and weather resistant structure used to house equipment on an active farm.
