

BLYTHEDALE SUBSTATION

**Owner:**

Community Fire Company
Of Perryville

Project Location:

Perryville, Maryland

Size:

5,100 SF

Cost:

\$540K - Project

Building Use:

Fire Department

Delivery System:

Design/Build

Project Completion:

2003

Architect:

Bernardon, Haber, Holloway
Architects, P.C.

Description:

The Blythedale Sub-Station is another example of the flexibility of the pre-engineered steel building system. Due to budget and time constraints, this system was ideal. The building's attractive exterior is constructed of split faced concrete block and steel roof panels. The apparatus bay also utilizes steel wall panels for economy and durability.
