Dover, Delaware

Size:
13,000 SF

Building Use:
Dining Hall

Delivery System:
Design/Bid/Build

Contract Cost:
\$2,145,000.00

Project Completion:
2004

Architect:
G. Niles Bolton, AIA

Description:
This new dining hall shows the versatility of a pre-engineered metal building system.

This facility includes a 5,100 sf commercial kitchen plus an additional demonstration kitchen. Seating capacity for 250 students and includes multiple food and drink stations. Interior features include multicolored tile walls, soffits, drop ceilings, and column covers.

The exterior is clad with brick masonry, E.I.F.S, and aluminum storefront glazing with an aluminum entrance.
