Elkton, Maryland

Size:
9,000 SF

Building Use:
Commercial

Delivery System:
Design/Build

Project Completion:
2004

Architect:
Joseph T. Farina, Architect

Description:
This project consisted of three phases including a complete re-skinning of the existing 20,000 sf production facility, a 4,000 sf addition to the production facility, plus a 5,000 sf two story office addition.

The production addition is a pre-engineered metal building system while the office was framed conventionally. The office has brick veneer to the second floor and aluminum clerestory windows.
