

RIDING ARENA

Owner:

David Moore

Project Location:

Bear, Delaware

Size:

7,500 SF

Cost:

\$140,000 - Project

Building Use:

Agricultural

Delivery System:

Design/Build

Project Completion:

2015

Architect:

Nowland Associates, Inc.

Description:

This horse riding area project was designed using a Star Steel Building system for economy, expedited delivery, and for its ability to provide an unobstructed 75' clear span with no interior columns. The building also incorporates translucent wall panels which allow a significant influx of natural light to enter the building.
