

BUS STORAGE CENTER

Owner:
MBNA

Project Location:
Christiana, Delaware

Size:
24,000 SF

Building Use:
Bus Storage

Delivery System:
Design/Build

Project Completion:
2002

Description:

Serves as the main hub and storage facility for a local bus fleet.

The facility is a pre-engineered steel building with exterior metal wall panels and a combination of split faced and glazed concrete block.

The building contains 22 automatic overhead garage doors providing 11 pull through bays and houses more than 30 buses.
