

Mt. Aviat Academy Retrofit Reroof

Owner:

Mt. Aviat Academy

Project Location:

Childs, MD

Size:

12,800 SF

Cost:

\$70K - Project

Building Use:

Maintenance & Repair

Delivery System:

Design/Build

Project Completion:

2017

Description:

Complete reroof of the existing facility using a retrofit metal roof system. The "Retro-R" roof system was installed directly over the existing metal roof, providing the owner with a new roof system without the need to tear off the existing roof. The reroof encompassed new "Retro-R" roof panels, roof trim, Gutters and downspouts. With an upper and lower roof element, Nowland Associates (NAI) went to great lengths to tie-in all necessary flashings for a weather-tight finished product.
