

DOWN'S OUTBUILDING

Owner/User:
Tom Downs

Project Location:
Landenberg, Pennsylvania

Size:
2,400 SF Facility

Building Use:
Agricultural Storage

Delivery System:
Design/Build

Project Completion:
2002

Description:

The Downs' new outbuilding is a pre-engineered metal building located on a horse farm in southeastern Pennsylvania. It will serve as the primary support space for the future barn and stable.

The building spans forty feet to allow for ample equipment storage. The program also included space for a second floor office, mezzanine storage, and wood shop.
