Becker Morgan Group

**Description:**
Nowland Associates proudly completed the construction of a new worship center for Worship Christian in Camden, Delaware.

The project features a pre-engineered steel building, designed to provide a durable, efficient, and flexible space for worship and community gatherings.

This modern facility combines structural strength with cost-effective construction, ensuring long-term performance while meeting the congregation's functional and aesthetic needs.

The result is a welcoming, purpose-built worship environment that will serve the church and its community for years to come.
