

CAFETERIA AND LOCKER ROOM RENOVATIONS

Project Location:
Newark, DE

Size:
2,568 SF

Cost:
\$430,000 - Project

Building Use:
Manufacturing

Delivery System:
Design/Build

Project Completion:
2012

Architect:
Nowland Associates, Inc.

Description:
Complete renovations to the existing cafeteria included demolition and re-location of existing HVAC units to the roof, enlarging the existing space by approximately 30%, concealing and/or relocating all existing exposed electrical and mechanical services. The cafeteria was completely refinished with new ceilings, floors, cabinetry, lighting fixtures and existing CMU walls refinished.

Adjacent to the cafeteria we completely reconfigured three bathrooms to create two new locker rooms including toilet facilities, lockers and showers. All renovated spaces were transformed with all new finishes and brought up to current building codes accessibility standards.
